

# Gas Station Surveillance

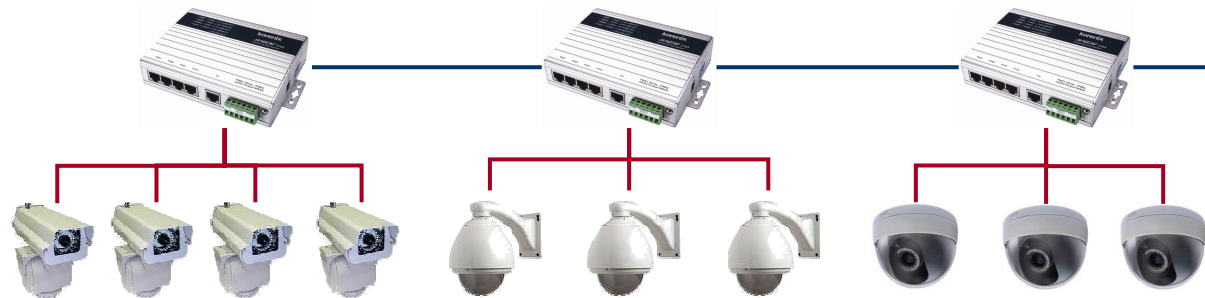

## US, 2006-2007

Gas stations are easy targets for thieves. A video surveillance system can help to prevent the station from theft or other attacks. A client in US chose JetNet 3705 to power the IP cameras for its easy installation and the safety concern of delivery power in the hazardous location.

## Why JetNet 3705

- 4-port IEEE 802.3af PoE
- Easy installation without additional power cords
- Relay alarm for port failure

NVR system makes it easy to monitor multiple locations at any time

Fixed cameras near the pumps to capture license plates of cars.

Dome cameras above the pumps to get a comprehensive view the station.

Cameras mounted by the cash register and in the office prevents a robbery.
